

In the near future, I will be introducing a series of bills to provide much-needed tax relief for Pennsylvanians and their families during these difficult inflationary times.

This bill will reduce the Personal Income Tax (PIT) rate in Pennsylvania from 3.07% to 2.99%. The PIT was previously 2.99%, but was increased during the Rendell Administration. It would be reduced over a 2-year period.

Please join me in cosponsoring this legislation to provide tax relief for Pennsylvanians and their families.
